

BOND BILL AMENDED FOR FREE COINAGE

CHANGES ARE MADE BY THE COMMITTEE.

The Measure as it Will be Reported to the Senate Indorses the Views of the White Metal Majority—Unique Scheme to Protect Gold Reserve.

Washington, Jan. 7.—The senate finance committee has decided to report as a substitute for the house bond bill the measure agreed upon by the silver majority. The substitute provides for the free coinage of silver, for the coinage of the seigniorage in the treasury, and makes it optional with the secretary of the treasury to redeem greenbacks and treasury notes in either gold or silver. The bill will be reported to the senate to-morrow. The silver substitute also provides for the retirement of all notes of less denomination than \$10.

The substitute was adopted without discussion, the vote being 8 to 5. Senator Wolcott was absent, but his vote was counted for the bill. The yeas were: Voorhees, Harris, Jones of Arkansas, Vest, White, Walthall, Democrats; Jones of Nevada, Populist, and Wolcott, Republican. The nays: Morrill, Sherman, Allison, Aldrich and Platt.

The Democrats indicated their willingness after the bond bill was disposed of to take up the tariff bill, but the Republicans asked for further time in order to submit the tariff to the Republican caucus. It is said that this bill will be reported substantially as it came from the house, except that an advance of 15 per cent of the present duty on sugar will be provided for, and the agricultural schedule will be increased to 20 or 25 per cent of the present law.

REPUBLICANS WILL CAUCUS.

Attitude of the Party on the Tariff Bill to Be Considered.

Washington, Jan. 7.—A caucus of Republican senators will be held today at the request of the Republican members of the committee on finance, to consider the questions which have arisen in connection with the house tariff bill. The committee is undecided between reporting the bill without amendment and amending it so as to make sure of the support of certain senators who have indicated a disposition to press very strongly for increases. The committee has had under special consideration such propositions to extend the provisions of the bill to sugar and to increase the rate of duty on spirits, agricultural products and pottery. The house bill increased the duty on these articles, with the exception of sugar, 15 per cent, while the proposition before the committee is to make the increase 20 per cent. The committee is disposed to report without any amendment, but, appreciating the narrow margin in the senate, it has been decided desirable to secure the sense of the entire Republican side of the senate before the plan of the committee is completed. It is therefore apparent that if the Republican senators show a disposition to press their amendments to the extent of opposing the bill they will be accepted.

There is, also, some apprehension lest the silver Republicans and the Populists, who, it is believed, would ordinarily support a tariff bill, may insist in adding a free silver coinage amendment to the tariff bill, and it is hoped that the caucus will have the effect of indicating what may be expected from the Republican silver senators.

HAS A NOVEL SCHEME.

How a New York Man Would Protect the Gold Reserve.

New York, Jan. 7.—Stephen H. Emmons, who is president of a gold-mining company at 1 Broadway, has sent an open letter to President Cleveland offering a unique plan for maintaining the gold reserve. He said in part:

"If the secretary of the treasury will put himself in communication with the owners of gold mines throughout the country he can cause the entire gold production of the United States to be placed at the disposal of the government in exchange for silver coin. So far, at any rate, as the mines which I personally possess or direct are concerned, I am willing to undertake that their output of gold—a very considerable amount—shall thus be dealt with; and there cannot be any doubt of every other American gold-mining corporation being ready to do the same.

"The assistance thus obtainable by the government will not involve any bond issue, and will not saddle the nation with any interest charge or syndicate remuneration. It will add to the volume of home currency at the same time that it will equally increase the amount of international currency in the treasury."

Sugar Trust Contempt Case.

Washington, Jan. 7.—The long-delayed trial of Elverton R. Chapman, the New York broker indicted for refusing to answer questions asked by the senate committee investigating the sugar trust, almost two years ago, and upon whose case the prosecution of the other five defendants in the sugar trust cases largely depends, was opened yesterday in the district criminal court. The day was practically spent in contests over technical points. District At-

torney Birney, in his address to the jury, asserted that Chapman's refusal to testify was a direct violation of section 102 of the revised statutes.

The Pacific Railroad's Debts.
Washington, Jan. 7.—The House Committee on Pacific Railways within a few days will begin to consider plans for adjusting the debt of the Pacific roads to the government. Several bills will probably be introduced within a week, which will give the committee plenty of ground to work on. Chairman Powers says it is absolutely necessary some disposition of the question should be made by this Congress on account of the approaching maturity of some of the bonds.

Important Pension Decision.
Washington, Jan. 7.—The invalid pension committee has agreed to report a bill providing that in considering claims filed under the act of June 27, 1890, the death of an enlisted man or officer shall be considered as sufficiently proved if satisfactory evidence is produced establishing the fact of the continued absence of such person from home and family for seven years, during which period no intelligence of his existence has been received.

Banker Coffin's Case Advanced.
Washington, Jan. 7.—The supreme court has advanced the case of Coffin, indicted for conspiracy in wrecking the Indianapolis National bank, and set the hearing for the first Monday in March.

KANSAS PRAIRIE FIRE.

Immense Loss of Life and Property Is Predicted.

Wichita, Kan., Jan. 7.—There were two counties in western Kansas covered by fire last night. About 9 o'clock a lurid light was seen in the sky, observable simultaneously at Pueblo, Col., and Wichita, a distance apart of 500 miles. Reports from ten stations indicate the largest fire to be in Kiowa county, and that it is of vast proportions. Haviland is the nearest station to the fire that can be reached, and the agent there says the nearest fringe of blaze is probably fifteen miles away, but so powerful that a newspaper can be read by its light in the streets of this town.

At St. John, Stafford county, the people are panic-stricken, as the fire is sweeping in their direction before a strong wind. Many of the farms have been abandoned for years and the fire is feeding on the rank grass, sun flowers and dead hedges. St. John people think that the loss of property and life of man and beast will be appalling.

It is impossible to get details, as operations on the Wichita and Western were recently abandoned in that section of the country, and there are no operators at the stations to report the disaster of the fire.

INDIANS IN REVOLT.

White Settlers in Danger Near Flagstaff—Assistance Sent.

Albuquerque, N. M., Jan. 7.—Meager news reached here late yesterday of a revolt against the whites by Navajo Indians. Early in the morning a cowboy rode rapidly into Flagstaff, his horse white with foam, and stated that a band of twenty-five renegade Navajo Indians had a number of white settlers corralled about forty-five miles from Flagstaff, and that if assistance was not forthcoming the whites would be massacred. Sheriff Cameron at once summoned a posse of determined men, and they have gone to the scene of the trouble. How serious the affair is and what caused the uprising will not be known until late tonight or tomorrow on the return of Sheriff Cameron and his posse to Flagstaff.

Production of Gold and Silver.

Washington, Jan. 7.—The director of the mint has received approximate estimates of the gold and silver product in the United States in 1895 from the mint officers and other agents employed to collect these statistics. He is of opinion after looking through the estimates submitted that when the final figures are compiled the production of gold by the mines of the United States in 1895 will be found to have been from \$46,000,000 to \$47,000,000, and the silver product about 46,000,000 fine ounces. The product last year was \$39,500,000 in gold and of silver 49,500,000 fine ounces.

Jealous Husband Kills His Wife.

Jeffersonville, Ind., Jan. 7.—A terrible tragedy was enacted in Washington county yesterday when Walter Coombs, a prominent citizen of Little York, shot his wife through the bowels, from which she died in fifteen minutes. He then shot himself under the heart. The only reason assigned for the deed was jealousy on the part of the husband, which is said to have been without cause. It is said he had previously attempted suicide. Two children were at school when the tragedy occurred. Coombs' death is but a matter of a few hours.

Canadian Government Shaky.

Ottawa, Ont., Jan. 7.—With seven vacancies in his cabinet, Premier Sir MacKenzie Bowell will meet parliament, which reassembles today. It is hardly possible that he can secure men to fill the vacancies, as it is conceded on both sides the house that the remedial bill restoring the Roman Catholic schools in Manitoba, which the government is pledged to introduce this session, will be defeated, which means the defeat of the government.

IS HAVANA HELD BY THE CUBANS?

CONFLICTING CABLEGRAMS FROM THE SEAT OF WAR.

Cuban Capital Said to be in the Hands of the Rebels—Conveyed by a Broken Cablegram—News Not Yet Confirmed—American Interests to be Protected by Warships.

Batabano, Cuba, Jan. 7.—At 10:30 o'clock yesterday morning the cable operator here received the following dispatch:

"Cubans have captured the city (Havana). Morro Castle alone holds out. General Campos—"

Here the dispatch ended abruptly, as cable communication between Havana and this point was cut off.

New York, Jan. 7.—There has been no confirmation of the statement contained in the foregoing dispatch that Havana has been captured.

Key West, Fla., Jan. 7.—Jesus Petuna, a well-known Cuban patriot, received a cipher dispatch from General Gomez yesterday declaring that the Spaniards were hemmed in on all sides and that before nightfall Havana would be in the possession of the patriot troops.

Barcelona, Spain, Jan. 7.—News most unfavorable to the Spanish government has been received here from Cuba. It is understood that the insurgent forces are pressing around Havana.

Detroit, Mich., Jan. 7.—Don M. Dickinson stated last night that he had received a dispatch from a Cuban in Washington confirmatory of the bulletins to the effect that the insurgents were actually entering the city of Havana. Mr. Dickinson, however, declined to state the sender's name, or the precise contents of his message.

Madrid, Jan. 7.—El Heraldo announces that Martinez de Campos, Captain General of the forces in Cuba and Governor General of the island, has resigned. The military authorities severely criticize him for his conduct of the campaign.

London, Jan. 7.—A dispatch to the Times from Madrid says that the report that Captain General Campos has resigned is denied in official circles.

LITTLE NEWS IN HAVANA.

Insurgents Are Destroying Sugar Cane and Tobacco.

Havana, Jan. 7.—Little news is received in this city regarding the movements of either the Spanish or the Cuban forces, the lines of communication being cut in every direction out of Havana. Enough is reported from points in the province of Pina del Rio, however, to show that the insurgents' columns have covered a wide territory in that province and are unceasingly destroying the sugar cane and damaging the tobacco crop.

Incoming trains from the south are bringing in vast throngs of refugees, men, women and children, some of whom have been burned out of house and home, but most of whom are simply fleeing from the fear of violence, having hastily gathered together a few household goods. This large infusion of panic-stricken people into the city's population spreads a contagion of alarm.

Loud disclaimers are being uttered by the authorities that they have any fear for the welfare of the city. It is protected by the strong fortress Moro, and being garrisoned by the Cabanas Principe, Alares, Santa Clara, and Reina troops, with heavy artillery, and by 20,000 volunteers, with 40,000 more loyal citizens in the city willing to take arms. With these forces at command, the authorities express the opinion with great confidence that it would be impossible for the insurgents to capture the city, unless they were provided with siege artillery. It is claimed that only small bands of insurgents are engaged in the operations under Gomez, and that they are successful only in small towns.

A statement, credited to Dr. Artigas, that the Spanish military doctors are poisoning the sick and wounded troops, is pronounced untrue, and is attributed to professional jealousy. Dr. Artigas' course is pronounced most ungrateful.

Will Protect American Interests.

Washington, Jan. 7.—The campaign in Cuba is being closely observed by the administration, in view of the reiterated reports of insurgent successes in their operations near Havana. In the event that they actually attack the capital of the island in force, it is possible that the North Atlantic squadron may be ordered to be in position to guard American interests during the disturbed conditions that may be expected to accompany the siege. It is not probable that exception could be taken to the presence of our vessels in such case by Spain, as it is customary for powers having large interests and many citizens in a city so beset to have some naval force present for their protection in an emergency, as was the case in Rio, for instance.

King of Ashantee Wants Peace.

Cape Coast Castle, British West Africa, Jan. 7.—Scouts sent ahead into the Ashantee territory have returned to the British outposts and report that King Premph has sent a messenger with proposals of peace to meet the expedition now on its way to Coomassie.

FOUR MEN CRUSHED IN A MINE SHAFT

AWFUL DEATH OF WORKMEN IN PA.

While Being Lowered Into the Mine an Immense Weight Which Balanced the Elevator Falls on the Occupants of the Car—Second Serious Accident.

Shamokin, Pa., Jan. 7.—While four workmen were being lowered into the new shaft of the Luke Fidler mine yesterday the "billy" which balances the elevator and which weighs 1,000 pounds, fell upon them without warning. They were instantly killed, their bodies being crushed so horribly as to make them almost unrecognizable. The victims were:

JAMES MERRITT, aged 25 years; leaves widow and one child.

STEPHEN MERRITT, aged 23 years; leaves widow and one child.

PATRICK LYNCH, aged 33 years; single.

PETER BOBERT, 23 years; leaves widow and one child.

The shaft bucket in which the four men met their sudden death was guided by big cross pieces and arms, known as the "billy." The wire rope passed through this "billy," and it is supposed that ice had formed on the rope. The bucket passed the ice in safety, but the "billy" was caught by it and the bucket had descended several hundred feet before the heavy weight caused the ice to give way and allowed the "billy" to fall upon the men.

This colliery had been idle since Oct. 8, 1894, when the mine was set on fire by a careless workman and six lives were lost, four of the bodies not being recovered for nearly a year. Bobert who was killed yesterday was a brother of one of the victims of the former disaster.

REJOICING IN UTAH.

Immense Gathering at Salt Lake City to Celebrate Admittance to Union.

Salt Lake, Utah, Jan. 7.—Another state has been added to the union and the rights of self government have been extended to 250,000 industrious, law-abiding and intelligent people.

The oath of office was administered to the state officials of Utah at noon yesterday. The city was crowded with people from all parts of the state. Acting Gov. Richards by proclamation declared the day a holiday. All business was suspended and the buildings along the principal streets were decorated with the national colors.

At 11 o'clock the street parade, under the direction of Grand Marshal Burton, moved from the corner of Main and South Third streets. The parade included Gen. Penrose and staff, Federal troops and the national guard of Utah, members of the legislature, civic societies and citizens.

While the parade was taking place the artillery on Arsenal hill was firing a salute of forty-five guns. Acting Governor Richards, as master of ceremonies, called the house to order, and prayer was offered by Wilfred Woodruff, president of the Mormon church. He prayed for the welfare of the nation, to which Utah will ever be loyal, and for the prevalence of justice, mercy, truth and peace, so that every soul might be free to worship as he sees fit.

"The Star Spangled Banner" was rendered by a chorus of 1,000 voices. After this the proclamation of the president of the United States, granting statehood to Utah, was read by ex-Deputy Joseph L. Rawlins. The oath of office was administered to the governor and state officers by Chief Justice Zane, of the supreme court of the state. Gov. Wells then delivered his inaugural address.

Day's Trial Again Postponed.

Milwaukee, Wis., Jan. 7.—Delay again characterized the case of Banker Frederick T. Day, whose trial was set for yesterday. An adjournment was taken until this morning at 10 o'clock. Attorney Quarles contends that Judge Wallber lost his jurisdiction at the time of the filing of the affidavits of prejudice and that hence his calling in of Judge Goodland was illegal. He thinks the only court having jurisdiction is the circuit court, presided over by Judge Johnson. The arguments on this point will, without doubt, be very long and heated. A change to the circuit will mean further delay.

German Press Quietening Down.

Berlin, Jan. 7.—The violence of the press against England is abating and the idea of a German protectorate over the Transvaal is warmly repudiated as a malicious and detestable invention. The purpose of the emperor's telegram to President Krueger was twofold: To secure cheap glory at home and to warn England that her safety lies in a closer contact with Germany and the triple alliance.

Short Session of the House.

Washington, Jan. 7.—The session of the house Monday was brief. Among the bills and resolutions introduced were the following: By Mr. Tracy of Missouri—A joint resolution giving congress power to levy a graduated inheritance tax on all inheritances and estates whose value exceeds \$100,000. By Mr. Towne of Minnesota—A bill to provide for the establishment of branch hydrographic stations at Duluth, Sault Ste. Marie, Mich., and Buffalo, N. Y. At 12 o'clock the house adjourned until today.

WORK OF SUPREME COURT.

Associate Justice Peckham Takes His Seat—An Important Decision.

Washington, Jan. 7.—Associate Justice Peckham, the latest acquisition to the supreme bench, took his seat as a member of the highest court of the land yesterday. The court assigned the 20th inst. for reargument of the interstate commerce cases involving the validity of the provisions of the interstate commerce law relating to long and short hauls and foreign rates.

The court rendered a decision, which was handed down by Justice Harlan, in the claim of the State of New York against the government for interest on money raised and expended by the State for the equipment of troops during the war, awarding the full amount of \$130,000 claimed by the State. The opinion decided several points bearing upon the functions of the court of claims and will have an important bearing upon all claims before the executive departments, possibly including the sugar bounty claims.

TO GO TO GIBRALTAR.

Cruiser New York and Two Other Vessels Are Ready.

Washington, Jan. 7.—It is no longer denied that the big armored cruiser New York, and probably two other vessels in Admiral Buncce's squadron, if not the entire fleet now lying in readiness in Hampton Roads, has been ordered to be in readiness for a voyage to Gibraltar in case the Turkish government does not promptly acquiesce in Minister Terrell's peremptory demands for immediate and full reparation for the destruction to American property and the injury to American citizens by Turkish subjects. In any event it is understood that the cruiser New York may leave for the Mediterranean at any moment, the departure of the other vessels depending on the contingency of the Turkish attitude undergoing a material change.

Ohio Legislature Assembles.

Columbus, Ohio, Jan. 7.—The seventy-second general assembly began its session yesterday. The republican caucus nominees were elected by a strict party vote. Governor McKinley submitted his annual report, which was an exhaustive discussion of state affairs, recommending biennial sessions, revision of the tax laws, the preservation of the canals, etc. In the senate a bill was introduced to raise the age of consent from 14 to 18 years, and a resolution was adopted expressing sympathy with the Cuban revolutionists.

Indiana Miners Discuss the Scale.

Terre Haute, Ind., Jan. 7.—The bituminous miners of the State meet in convention here today. The scale for 1896 will be discussed. Miners in Indiana are receiving 60 cents per ton, without regard to the differential of 9 cents less than the Pittsburg scale. Figured by that scale and with the recognized differential, they would be receiving 55 cents per ton. An effort will be made to fix the '96 scale at 65 cents per ton, and ignore the Pennsylvania scale.

Defaulting Banker Captured.

Des Moines, Iowa, Jan. 7.—Tracy W. Douglass, alias C. O. Davis, alias E. C. Misner, the defaulting East Peru, Iowa, banker, was arrested yesterday at Canandaigua, N. Y., and will be brought back to Iowa for trial. Douglass defrauded his partners, depositors and banks with whom he did business of between \$15,000 and \$18,000. The precise amount cannot be learned, as the amount of the deposits in the East Peru bank is not known.

Kentucky Changes Officials.

Frankfort, Ky., Jan. 7.—The formal transfer of the various state departments took place yesterday. The new officers were sworn in, and for the first time in the history of Kentucky, the state government is in the hands of Republicans. The House and Senate Republican caucuses were held in the afternoon. Charles Blanford, a supporter of Dr. Hunter for the United States Senate, was nominated for Speaker of the House, in which body the Republicans have a majority.

Distinguished Soldier Dead.

Cleveland, Ohio, Jan. 7.—General Mortimer D. Leggett, who was one of the noted officers of the civil war, died at his home in this city last evening of apoplexy. He participated in many of the prominent battles of the war and was repeatedly honored for bravery. He was appointed Commissioner of Patents by President Grant, and had resided in this city since Grant's administration closed.

Anti-German Riots at London.

London, Jan. 7.—Disorders occurred in the East end of London last night, growing out of the fact that the German and Dutch sailors about the docks were hissed and molested. The windows in the shops kept by German Jews were broken and several German clubs were closed.

German Settlers for the Transvaal.

Berlin, Jan. 7.—It is stated that Dr. Leyds, the secretary of state for the Transvaal, with a secret fund at his disposal, has floated a German colonization company to introduce 5,000 German military settlers into the Transvaal.

President of Chicago Board of Trade.

Chicago, Jan. 7.—William T. Baker was re-elected president of the Board of Trade yesterday, defeating Thomas A. Wright by 215 votes.

PAID THE TREASURER.

Rufus Ramsey Received Two and One-Half Per Cent on State Funds.

Carlyle, Ill., Jan. 7.—The great legal contest between the creditors of the defunct banking house of Rufus Ramsey of this city and the Chicago bondsmen, who were the sureties of the late treasurer of Illinois, came up at a special session of the circuit court, which convened in this city yesterday. When Rufus N. Ramsey was elected treasurer of Illinois a number of Chicago bankers signed his bond. At the time of Ramsey's death there was a shortage of \$500,000 in the state funds, but by restoring amounts received from Lima lake bonds, D. F. Phelps, William Hanna, John R. Tanner, O. W. Nixon, F. K. Whittemore, C. W. Fairbank and others, the shortage was reduced to \$363,000. This amount was filed as a claim against the Ramsey estate by John Whitbeck et al., representing the bondsmen, the banks interested being the Chicago national bank and the National Bank of Illinois, the Corn Exchange bank, the Fort Dearborn National bank and the Metropolitan National bank. Their petition before Probate Judge Jones of this city to have this claim classed as a preferred one of the sixth class met with success. The Carlyle creditors are endeavoring to have this claim thrown out altogether or placed in the seventh class or place the Ramsey bank creditors in the sixth preferred class. If they fail to do this they will lose the entire amount of the deposits in the defunct bank. Cashier Blount of the Chicago national bank was on the stand for five hours and was subjected to a rigid cross-examination. He was pushed closely by Attorney Van Hoorebeke. Blount stated that it was his bank's custom to pay the state treasurer 2½ per cent interest on the monthly balances. These amounts, he claims, were paid monthly to a middleman and not to the treasurer. The case will probably not be terminated before Wednesday or Thursday.

WILL CALL A CONVENTION.

Project for a Michigan City-Toledo Canal to Be Pushed.

Laporte, Ind., Jan. 7.—Dr. Harris, the promoter of the project to build a ship canal from Michigan City to Toledo, O., has decided to call a convention of delegates to be selected from the cities along the proposed route of the waterway. Committees have been appointed at Toledo, Maumee, Antwerp, Defiance, Napoleon and Florida, O., and at Fort Wayne, Goshen, Elkhart and South Bend, Ind. The convention will memorialize Congress for an appropriation of from \$10,000 to \$20,000 to make a survey. Dr. Harris says it is only a question of time when the lower end of Lake Michigan will be diked and that this would not only form a series of ice breakers, but also a canal in which shipping could be carried on, thus making a continuous canal from Toledo to Chicago.

Inquiry into St. Louis Accident.

St. Louis, Mo., Jan. 7.—A large number of witnesses were examined yesterday by Coroner Waite, who commenced the inquest over the bodies of the victims of the recent explosion in which seven lives were lost and \$100,000 worth of property destroyed. The opinion was that the explosion was caused by a fire, but nobody seemed to know how it started. Fireman Thomas Haines, who was early on the scene, declared that it was dynamite that wrecked the buildings and caused the loss of life. H. B. Grubbs, the commission merchant who handled the exploded fireworks, denied that he had any dynamite or giant powder in his stock, which was valued at about \$6,000.

We have almost finished our annual invoice and probably will talk things to you tomorrow that will be most interesting. A. Richardson Shoe Co.

O. A. FRIDDELL DEAD AT HIS MILTON HOME

WELL KNOWN RESIDENT IS
CALLED HOME.

Had Resided in That Village for Many Years—His Record as a Soldier—Funeral Held Yesterday—Barn Narrowly Escapes Destruction—Other News of the County.

Milton, Jan. 7.—Oliver A. Friddell, whose illness has been frequently noted in this column, died Saturday morning. Deceased moved to this village soon after the close of the war and engaged in the blacksmithing business and continued to work at that trade until his last sickness began. He was a kind neighbor, good citizen and practical christian, and had in a high degree the esteem and confidence of both his patrons and the community at large. He was an active member of the Grand Army Post and Odd Fellows lodge and was for many years a member of the Methodist church. His death leaves a vacancy in our business, society and social circles that none but a good man can fill. He was fifty-five years of age. Mr. Friddell's army record was one that his family and friends have just reason to be proud of. He was a member of Company D of the famous Second Wisconsin Infantry in the "Iron Brigade." He enlisted as a private in 1861 and was discharged with the rank of sergeant in 1865. He participated in twenty-six battles, including Ball Run, Antietam, Fredericksburg, Gettysburg and Appomattox. At the battle of Gettysburg he received his first wound, and was again shot at the Battle of the Wilderness, to say nothing of several minor wounds. For his services he drew a small pension, and his death was due, no doubt, to an old wound. The funeral services were held Monday afternoon at his late residence, and by his special request were conducted by Rev. E. M. Dunn, pastor of the Seventh-Day Baptist church, with whom the deceased was very intimate, and the ceremony at the grave was in charge of Dulac Lodge I. O. O. F. and A. D. Hamilton Post G. A. R. and was largely attended by his friends and neighbors. The bugles of Rev. Wm. Walker and Albertus Clarke were overthrown in front of the drug store Monday and the elder and Mrs. Clarke were both deposited on the snow. Fortunately neither the occupants or carriages suffered damage. Prof. H. C. Curtis and wife of Wau-pun arrived here last Thursday. The professor returned to his home Friday, but Mrs. Curtis will remain for a visit with her relatives. O. A. Wheeler of Beloit was a visitor here Friday. William McEwan's barn had a narrow escape from destruction by fire Saturday evening. He dropped his lantern which set the hay afire and in putting out the blaze Mr. McEwan burned his hand, ear and clothing, the burn on his hand being quite serious. The annual dinner of the Seventh Day Baptist church and society held Sunday afternoon was attended by at least three hundred, dinner being served to two hundred and seventy persons.

SHOPPERS' NEIGHBORS ELEVATED Camp Now Has New Rulers—Thermometer Was Strained by the Cold.

Shoppers, Jan. 7.—The Royal Neighbors elected officers for the ensuing year as follows: O.—Mrs. C. H. Weirick. Recorder—Miss Hettie Van Gilder. Receiver—Mrs. M. C. Enling. Chancellor—Mrs. C. J. Rice. I. S.—Mrs. Phil Golden. Marshal—Miss E. E. Dunn. Assistant—Mrs. Will Kemmerer. The cold wave of Thursday and Friday was quite severe. The thermometers registered from twelve to eighteen below zero. About two inches of snow fell Sunday evening. John Anderson and son, of Beloit, spent Sunday with his brother-in-law J. V. Weirick. Rev. Mr. Damon preached in the Congregational church Sunday afternoon. Don't forget the entertainment given by the M. W. A. Wednesday evening, January 8. Jay Hammond was taken with a bilious attack last Thursday, and is quite sick. Mrs. C. N. Wright was under the doctor's care for a few days. The ice men are rejoicing over the "cold snap."

NORTH JOHNSTOWN PASTOR TO GO Rev. T. S. Jones To Close His Work March 1.

North Johnstown, Jan. 7.—The pastor of the church, Rev. Jones has decided at the close of this year the last of March, to either go back to Indiana or take work in some other part of the state. The church will secure some other man for a pastor. The news from Mrs. C. W. Bullock who went to Colorado for her health is not very flattering though she says she is mending very slowly. The pulpit committee for the church is E. O. Cary, W. H. Newton and F. E. Ornborn. Rev. John H. Bray of Stoughton will be with us during this week and the weather being favorable we shall have meetings all the week. The Christmas entertainment was rather good but the bad roads and rainy night was very much against us. Several poor people were remembered with presents. Some of the best looking people got no presents.

MEN OF THE PUNCH WILL MAKE MERRY

CONDUCTORS PLAN A BANQUET
AND BALL.

Event Will Take Place at the Armory on Feb. 13—New Officers are Chosen—Culture Club Plan the Year's Work—Mr. and Mrs. Cuckow Surprised.

The Order of Railway Conductors held an interesting business meeting at their hall, and besides the election of officers for the coming year, the annual ball and banquet was considered, and the date fixed as February 13. On this occasion the conductors will try and outdo all previous efforts, which is saying a great deal. Smith's fall orchestra has been engaged, the hall will be handsomely decorated by a florist from Arlington Heights, and preparations are now being made to give a banquet in the Union Catholic League Hall, opposite the Armory, so that the armory can be used exclusively for dancing. The following officers were elected for the coming year:

Chief Conductor—J. B. Callahan.
Assistant Chief Conductor—Frank Sughray.
Secretary and Treasurer—L. M. Thomas.

Senior Conductor—N. Dunwiddie.
Junior Conductor—F. J. Nightingale.

Inside Sentinel—Charles Ring.
Outside Sentinel—A. E. Rich.

THE CULTURE CLUB'S MEETING. Officers Are Elected and Plans Made For The New Year.

The annual meeting of the Culture Club was held at the residence of Mr. and Mrs. W. H. Greenman 356 Court street last evening. Reports of officers revealed the interesting fact that there was a goodly balance in the treasury and plenty of ways in which the club could contribute to the practical enterprises of the church. Officers for 1896 were elected as follows:

President—Grace Brownell.
Vice President—C. V. Kerch.
Secretary—Emma Comstock.
Treasurer—Mayme Hadden.

A committee was appointed to arrange for a social dancing party to be given in the church parlors Monday, January 13. This party is to be followed in two weeks by an animated art exhibition. Early in February the club are to give an elaborate dramatic and musical concert. The unusual enthusiasm on the part of all present, is a guarantee of a very profitable year's work. Already this newly organized literary and social club has made for itself a place in the higher educational life of the church and the city. The Sunday afternoon lectures given under its auspices have proven far more successful than was at first anticipated. The Culture club invites to its membership any one who is interested in highest social and mental life. At the meeting last evening it was unanimously voted that \$50 be appropriated for help in the special home missionary work which Mr. Southworth has in hand for the new year.

MR. AND MRS. CUCKOW SURPRISED Neighbors Greeted Them Pleasantly On Their Return From the East.

Neighbors made the home coming of Mr. and Mrs. Samuel J. Cuckow a joyous event last night. Mr. and Mrs. Cuckow have been on a trip through the east and have been absent since November. They have just gotten settled, having arrived home at noon, when a knock came at the door and a party of friends marched in and took possession of the house. Mr. and Mrs. Cuckow were breathless with amazement, but soon made all the guests feel thoroughly at home. The good things the guests had brought were spread at 10 o'clock and the occasion was a most pleasant one. Those present were:

Messrs. and Mesdames—
William Bladon, Dan Ryan,
W. B. Baines, J. A. Fathers,

J. C. Roessling.

Mesdames—

Two Ways of Cheapening

This is an age of cheapening. It is done in two ways. One is hurtful and the other is helpful. The hurtful one is stocking up with cheap goods after the busy season and making believe they are first class. The helpful one is selling your high class goods at low figures, and just what we are doing to clear out all our winter goods to make room for the prettiest line of spring goods on the market. Frank H. Baack.

The Gold Snap
Has helped our cash receipts wonderfully, together with extreme low prices. But we are bound to make January business equal to December, if the profits are not as much. Money is the watchword this month. Frank H. Baack.

We didn't quite finish our invoice as we expected to and will be obliged to put off the sale we were to inaugurate today, until tomorrow. But it will pay you to wait, we will startle you when we do talk. A. Richardson Shoe Co.

THIS is the kind of weather to use good warm mittens. We have the good kind in double yarn, extra heavy at 25 cents, and a good mackinaw at 25 cents. The hands won't get cold in a pair of them. We have also got a first class horse hide glove for 50 cents, formerly sold for \$1. H. Baack.

IN the Charles Yates Devil's Auction which appears at Myers Grand next Friday ten entirely new scenes have been constructed while the trick and mechanical devices are all of an original character. Much has been accomplished in the way of ballets, both comic and sentimental the only retentions being the "queens" and "fairies" of the ballet, and "On the Rialto," while the list of dances which are introduced in the "Boulevard" are decidedly new and novel. Mr. Yale feels very happy and naturally so, that this season's production will outrank in every way any previous presentation of this now altogether national spectacle.

DRESS
GOODS

25c for any piece of dress goods that was included in the late 29c lot. At 29c they are better value than we ever offered before. At the 25c price they cannot remain long with us. 25c is simply an excuse of a price for such dress goods; it is not giving them away, but it is mighty near it.

33c We had 125 pieces laid out, dress goods worth from 50c to 65c, and they were what you have seen advertised at 36c. To encourage quick selling we have reduced this lot to 33c. Your own judgment will tell you, as soon as you see them, that it is a figure that can only last for a short time. Now is the golden opportunity.

59c Stop and consider what it means. Read the price over and over. Couple it to the Dress Goods you saw on the 64c table, down from 80c, 90c and \$1.00. The extra fine Serges, Henriettas, Chic Novelty, Iridescent, Fine Checks &c., 45 to 50 inches wide. It is an offering that we can probably never make again.

BABYLONIAN JEWELS.

Remarkable Gems Described by a Fourteenth Century Writer.

A very curious description of Babylonian found in a manuscript of the fourteenth century was published in 1782. "A city," says the author, "rich in the gifts of the ages, safe from disease and distress, where all faces are joyous, and where the three holy rivers flow over costly stones, some of which dispense a beautiful light, and others give health and strength. There is the emerald, brighter than a mirror; the jasper, which preserves from poison; the garnet, which casts out demons and destroys serpents; the diamond, which can only be affected by the blood of kids; the topaz, which gives its own color to all it approaches; the coral, which wards off the thunderbolt; the hyacinth, of the color of the day, that cures all diseases; the margarita, formed of dew; in a word, every precious stone that possesses miraculous virtue." How these exquisite specimens of nature's handiwork came into existence is a question difficult to answer. We know of what they are composed, but, if we except the pearl, we know nothing of the process by which they arrived at perfection; this is a problem which must be left to future generations to solve.

It has been proved that the materials of which precious stones are made are of the commonest and most plentiful, "and yet," says an old writer, "we think the very heavens concurred with the earth to their 'commixion,' and so the sun left part of his light shining in them." The diamond, which is so dazzlingly bright and so pure, is in reality nothing more or less than pure carbon; the ruby and the sapphire are composed almost entirely of clay; the emerald of sand or silica, while the pearl is formed of carbonate of lime. This would strike us as most wonderful if we did not remember that out of the dust of the ground God made man, whose beauty and value are far above the diamond and ruby. A French writer says: "It would seem as though the mighty creative and organizing power had chosen to manifest its omnipotence by producing its most valuable substances from the most ordinary elements." Think of the combination of circumstances required in the formation of these beautiful crystals to give them the necessary transparency, brilliancy, luster and exact amount of coloring matter for the desired tint, to say nothing of their freedom from flaws and defects. Another circumstance of great interest about precious stones is that they have doubles so like themselves that it is difficult for the untrained eye to detect the difference, and yet the one is of great value, while the other has little or none in comparison.

THE SURGEON'S KNIFE.

Once Believed to Be the Only Cure for Piles and Rectal Diseases.

A Better Way Now Discovered, Which Cures Every Form of Piles Without Pain or Inconvenience.

Many people suffer the pain, annoyance and often serious results from piles for years, and after trying the many lotions, salves, ointments and so called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure; a remedy which is approved by the medical profession, as being absolutely safe, free from any trace of opiates, narcotic or mineral poisons and which may be depended upon as a certain cure (not merely relief) in any form of Piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous, as a perusal of the following will demonstrate.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from Piles for forty years and from Itching Piles for twenty years, and two boxes of the Pyramid Pile Cure has effectually cured me.

Dr. J. W. Megan, Leonardville, Kan., writes: I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years.

James Jamerson, Dubuque, Iowa, says: I suffered from Piles for six years; have just used the Pyramid Pile Cure and am a well man.

Mrs. M. C. Hinkly, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

The Pyramid Pile Cure may be found at druggists at 50 cents and \$1.00 per package. A book on cause and cure of Piles will be sent by mail, by addressing the Pyramid Drug Co., Albion, Mich.

THIS DAY IN HISTORY.

1715—Fenelon (François de Saligne de la Mothe), French writer, died; born 1651.
 1718—General Israel Putnam born in Danvers, Mass.; died 1790. Putnam won laurels as a gallant soldier before he became "Old Put" of the Revolutionists. He was quietly farming in Connecticut when the French invaded from Canada. Connecticut furnished 1,000 soldiers. One company of these was commanded by Captain Israel Putnam. During the campaign he fought in the battle of Lake George, a victory for the colonials. For two years after the battle of Lake George, Putnam led a noted band of rangers which was active in annoying the enemy on the border. At the end of the time he bore the rank of major. Numerous instances were given by Putnam of great personal bravery. After ten years of service filled with adventures, he returned home with the rank of colonel. He joined the "Sons of Liberty" in Connecticut and was among the first to march against the invaders. Connecticut gave him command of all her forces.
 1800—The Empress Augusta, widow of Emperor William, died in Berlin; born 1811.
 1891—Balmaceda assumed dictatorship in Chile. Beginning of the Chilean civil war.

PUTNAM.

TOO MUCH CROAKING.

The troubles in our financial affairs are not such as threaten a great calamity. They are simply incidental and easily remediable. The only danger lies in allowing them to be prolonged, and in talking about them as if they involved the immediate probability of financial catastrophe. In this respect, the president and his secretary of the treasury are playing a very a very imprudent part, to say the least. Their hysterical way of discussing the situation is calculated to convey an idea of the difficulty that is not warranted by the facts. Mr. Cleveland's recent special message was of an alarming tendency, to which the stock market quickly responded in a general shrinkage of prices; and Mr. Carlisle's declaration against the pending legislation for the relief of the treasury has been similarly disturbing and detrimental. The republican majority in the house has taken patriotic and practical action for the protection of the public credit and the removal of existing financial embarrassment but it has not received any assistance or encouragement from the administration. The president painted the situation in the most lurid colors, and then added the excitement of a message implying the possibility of war; but he has not seconded the efforts of the house to cure the ills that he pointed out with so much emphasis, and his secretary of the treasury has not done anything in the matter except to disparage such efforts and go on croaking at the top of his voice. It is not difficult, therefore, for the country to see who is striving to uphold the public credit, and who is neglecting that important duty.

England's unpopular action in Venezuela and the Transvaal make the services of a poet-laureate very necessary. Nothing but poetic license can shape a justification for those two bits of greediness.

That endless chain of greenback withdrawals of gold from the treasury did not begin to take dangerous shape until this administration and the congress which went into existence with it created the revenue shortage.

There is no reason why the presidential canvass this year should be hard on business. There will be no trace of any unsettling doubt as to the result.

PRETTY

AND ATTRACTIVE WOMEN.

Their Good Looks Not a Secret.

[SPECIAL TO OUR LADY READERS.]

No matter to what country she belongs, or whether she be black or white, as a woman she desires to look well.

Women know the influence of beauty on men; men rarely admire a beautiful invalid, but they do admire a woman in whom is blended good features and perfect health.

There is no secret about a woman's beauty; it all lies in the care she devotes to herself, to removing from her system all poisonous impurities, and keeping at bay those fearful female diseases.

The flashing eye, elastic step, and brilliant complexion are never companions of a womb trouble; only the distressed expression and aches, pains, blues, faintness, dizziness, bearing-down feeling, etc., keep it company.

Lydia E. Pinkham's Vegetable Compound removes female troubles promptly, and cleanses, invigorates, and consequently beautifies, the form of woman. Women, the world over, pay homage to it, and praise its discoverer. Your druggist sells more of it than all other female medicines.

SUTHERLAND NAMED AS THE TRUSTEE

NOW HAS THE MACLEAN ESTATE IN CHARGE.

Appointment Made by Judge Sale Today, E. D. McGowan Having Finished His Work as Administrator With the Will Annexed—Other Business Before the Courts.

George G. Sutherland, of the firm of Sutherland & Nolan, was today appointed trustee to take charge of the estate of the late Nancy A. McLean, and carry out the provisions of the will. The appointment was made by Judge Sale, of the county court, upon the petition of all the heirs.

The petition was filed when E. D. McGowan, who was appointed administrator with will annexed, filed his report, and asked to be discharged, as he had carried out his part of the work.

ATTORNEY E. D. MCGOWAN.

Several other probate matters were passed upon by Judge Sale at today's term of court, but nothing else of public interest was done.

In the circuit court the "Mechanics Green" case is still on trial. It was expected that all the evidence would be in today, but just how long it will take to finish the matter was stated by the attorneys, to be an indefinite quantity.

TWO MEN WITH TWO BIG MAULS

Work in a New Sewer Points a Moral and Adorns a Tale.

When a contractor is in a hurry to drive a long plank down the side of a new sewer, he sets two men at it. Each, with a big maul, hits it alternate blows as often and as hard as he can. The strokes come as evenly as a pendulum swings. One man and one maul would drive the plank down, but it would take longer. The bigger the maul the quicker and easier he will do the work. Two men or a dozen, with tack hammers, would not get the plank driven in a hundred years.

There's a parallel to this in advertising. If you are in a hurry to drive your business, use two papers and make the advertising maul—the space as big as possible. If you haven't money enough to buy two big mauls, only buy one, use only one paper—the best—and make the space big enough to be felt. You'll do more good with one maul than with half a dozen tack-hammers. You'll get more benefit from a regular advertisement of sufficient size, in a paper like The Gazette than you will from a half dozen smaller ads in a weaker paper. If you have only one ad, have it right. Be sure you are doing enough in the best paper before you think of adding another.

WOODMEN PLANNING ON THE BIG PICNIC

IT MAY NOT BE HELD IN THE CITY.

Money Must be Raised For Expenses and if This Cannot Be Done the Gathering Must be Held Up the River or in Mole's Grove to Insure Success.

Great preparations are being made by the local lodge of Modern Woodmen for the great picnic of the order, and members say that fully 45,000 people will be here on that day.

"Being so close to Illinois we ought to have at least 10,000 more people than were at Madison" remarked a local member this morning.

The crowd at Madison numbered fully 35,000, and with this crowd we expect at least forty bands.

The Bower City will see the greatest crowd in her history. We have carefully inquired into the matter, and think that the only way to do is to make a careful canvass of the entire business portion of the city, and see what the business men will do toward defraying the expenses. If we find that the hotels and business houses are unwilling to give, we will have to take the picnic up the river, or to the Mole picnic grounds, for we have to make the financial part of it a success. With 45,000 people in the city for one day, local business men can not afford to compel this move. Within the past few weeks numerous letters have been received inquiring as to what we are doing in the way of preparations, and although no definite date has yet been fixed, I think the event will occur some time between the first to the tenth of June."

Saddened as the house is, by the angel of death coming, the grieving parents are comforted by the fact, that another daughter, little Nora, has been spared to them. The funeral will be held from the home at 1:30 o'clock Thursday afternoon, and from St. Paul's church at 2 o'clock.

Y. M. C. A. DIRECTORS HOLD A MEETING

IMPORTANT BUSINESS TRANSACTED LAST NIGHT.

Gymnasium Will Be Equipped at Once, But Not Opened Until it is Self Supporting—Fifty Five New Members Are Taken in—Other Matters Considered.

A meeting of the Board of Directors of the Y. M. C. A. was held last evening in the new building, and all members were present. The names of fifty-five new members who have applied for admittance were presented and accepted. The matter of building lockers and the placing of the bowling alley in the basement, were also brought up but for the present nothing will be done with either proposition. The matter of the immediate equipment of the gymnasium was then considered and it was the opinion of all the directors that the work should be commenced at once but when finished that department should be under lock and key and not opened until there are a sufficient number of members to guarantee the hiring of a physical director. Thus the matter lies wholly with the young men, for the quicker the memberships come in, the sooner the gymnasium will be open for as one of the directors told a Gazette man this morning they intend to make no play house of the gymnasium, but instead will run it on a strictly business basis right from the start. So far seven applications are under consideration for the place of physical directors, but so far nothing has been done, as to the hiring of any particular one.

This Week of Thought is for everyone.

Come, let us think together.

A Singular Affidavit.

The officers and clerks of the United States land office in St. Cloud, Minn., are greatly amused over an unusual affidavit which found its way into their place of business lately in the contest case of Alonzo W. Keyes vs. Sarah Langen, the plaintiff having filed an affidavit of the death of the contestee. He swears that he does not know the present postoffice address or whereabouts of the contestee, and Dr. N. K. Whittemore of Elk River follows with this somewhat remarkable affidavit:

"This is to certify that Sarah Langen, supposed to be single, died on February 8, 1895. I have no memorandum stating just the cause of death, and I have had more to think about in caring for the living than thinking about the dead. I am quite certain that she is dead, and have certified to that fact at least once before. She was a patient of mine, and that ought to at least give me authority to know whereof I speak; and, possibly, that ought to be sufficient guarantee that she is dead."

Imagine His Feelings.

Joe Coleman has a boy that he is pretty proud of showing off to people, the Puyallup (Wash.) Commerce says. He had him on a Puyallup electric car the other day, and, while the boy was gazing out of the open window, his father slipped the hat off the boy's head in such a way as to make his son believe that it had fallen out of the window. The boy was very much upset by his supposed loss, when his father consoled him by saying that he would "whistle it back." A little later he whistled and the hat reappeared. Not long after the little lad seized upon his father's hat, and, flinging it out of the window, shouted, "Now, papa, whistle your hat back again."

Bound to Have Style.

After the new minister had delivered his first sermon in the Presbyterian church of a little Washington town, recently, a deacon approached him and said:

"You didn't give us any Latin or Greek in yer sermon to-day."

"No," said the minister, "I did not. I was not aware that the congregation included any who understood those languages." And this was a bit of sarcasm.

"Wall, there ain't none wot duz," replied the deacon; "but we folks up here want tu hev wat's going on in them city churches, an' we'll hev tu ax yer tu give et tu us."

Descendants of Dante.

A descendant of the famous poet, Dante, Count Dante Serego-Alighiero, the mayor of Venice, died recently at his villa Gargagnano, near Verona. His family descends from the author of "La Divina Comedia" on the female side only. The last male descendant of Dante, Pietro di Dante, died in the year 1547. His daughter was married to a Count Serego, of Verona, and he obtained the right to add his family name to that of his wife. The family of Serego-Alighiero is very numerous and wealthy, and most of its members live in the province of Venezia.

Secret of Oil Painting.

Messina was the first to bring the secret of the oil painting of the Netherlands to Italy. He studied with the Eycks about the middle of the fifteenth century and after returning to Italy introduced the improved methods in the use of oil.

DYSPEPSIA THE CHIEF CAUSE OF CONSUMPTION

FACTS WITH WHICH FEW ARE FAMILIAR

Dyspepsia or ordinary indigestion is seldom regarded as a dangerous disease, yet doctors now realize that any disturbance of the digestive function is but a stepping stone to the most dangerous and fatal of all diseases—dreaded consumption.

This appears very clear when we consider that consumption, as the name implies, is but a consuming of the body's substance. Weakness and emaciation naturally result.

The body of a person who does not properly digest food undergoes wasting, and you may safely assume that every pale, thin person of your acquaintance is not properly digesting and absorbing food. In other words, the substance of the body is being consumed and when the cough puts in an appearance they will be regarded as consumptives.

The symptoms of consumption and those arising from certain forms of indigestion are practically identical. Therefore don't despair even if you think your lungs may be affected. First try to repair your stomach and put it in order. This is best done by a very harmless though very ingenious remedy—the Shaker Digestive Cordial.

This product, prepared by the Shakers of Mount Lebanon, aids the digestion of food in the stomach, and when food is once digested, it is quickly absorbed.

If you are dyspeptic, don't wait until some more dangerous disease has appeared. Correct the trouble at once.

A single 10 cent bottle of the Shaker Digestive Cordial will be sufficient to convince you of its merit, and its continued use is almost certain to effect a cure. All druggists keep it and can apply you with an interesting descriptive pamphlet.

KEELEY
CURE.

To the Public:

Some so called Institutes for the cure of drunkenness envious of the record we have established, are spreading reports calculated to deceive the public and which are to the effect that branches of the genuine Keeley Institute are established in various parts of the state. We are also informed that agents of some fake institutions are doing business by making misleading statements. For the protection of the people of Wisconsin we desire to announce that we employ no agents whatever and are responsible only for patients treated at our Ripon, Wis. and Waukesha, Wis. Institutes. We point with pride to the fact that out of 275,000 patients so far treated by the genuine Keeley Method used by us, not one case has gone wrong. We challenge the world to bring up a patient who has taken the Keeley Cure at any of our Institutes and has been killed or even injured as has been the case with patients of some other institutes. Our method is endorsed by the U. S. Government and eminent men all over the United States. Beware of fake substitutes. For further particulars address

Simplicity.

That's the word. It's not "marvelous," "stupendous," nor "wonderful". Its a simple cutting off of the biggest end of a price on every thread of clothing and furnishings in Zeigler's big store. There's nothing so simple and easy as price cutting, but it takes nerve, it costs money, and that's why there never has been such price cutting in Janesville as has been done at our sacrifice sales.
